

TDC Health and Safety Policy

TDC HEALTH MEASURES

No parents may enter the studio.

No dancers who have a fever, have been feeling ill, or have been around sick friends or family will be allowed to participate in our in-studio classes. As long as we are in Orange, temperatures will be taken of dancers upon entry.

All dancers must wear masks upon entrance, in the lobby, in the hallways, and in between classes.

All staff are having their temperatures monitored at the beginning of their shift.

Please remember to have your dancer bring their own full **water bottle** as we are not allowing the use of our water dispenser.

We ask that all dancers are dropped off **5 minutes prior** to their class. When students arrive, they will go to the bathroom and wash their hands before class begins. We have markings in the studio lobby and hallway to help dancers maintain 6 foot social distancing.

Parents must be in the parking lot **at the exact time** class ends so that dancers can head straight out for pickup.

Staff will be closely monitoring the beginning, end, and switching of classes to ensure that there is no interaction between students who are arriving and departing.

Please speak with your children about the importance of maintaining 6 ft social distancing while entering and exiting and preparing for class. Our studios will be taped off with the required 10 ft space between students, and teachers will ensure that routines in class are done with appropriate social distance.

Classrooms are being disinfected and surfaces are being wiped down in between each class.

Immediately after each class, students will have their hands sanitized and head directly to the parking lot for pickup.
